Name: _____ Quarter I II III IV

Service Hour Sheet (Grade 5)

This year, each 5th grade student is required to complete four hours of service for others per quarter. Service time can include helping teachers, the principal, various staff members throughout the school, working with the Religious Ed. Program, or assisting with Market Day and various clean-up projects around the school/church grounds. **Helping with chores at home should be a normal everyday occurrence and cannot be used for service time.**

Class members who are not Catholic may work on projects within their church to fulfill a portion of this requirement, but are also to make an investment of their time within the school.

This form is for keeping a record of your hours. All verification signatures must be those of an **adult** and should be obtained at the time of service-not weeks later.

This is **NOT** an optional program. Completion of service time will be an integral part of each quarter's religion grade.
